## **HISTORY:**

The Tennessee Wildlife Resources Agency acquired the state's boating program in 1965 with the implementation of the 'Boating Safety Act'. Before this date the United States Coast Guard (USCG) administered the state's boating program.

## **INTRODUCTION:**

The 2006 Boating Accident Statistical Report is compiled by the Tennessee Wildlife Resources Agency (TWRA), Boating Division. The data used in this report is retrieved from "reportable boating accident" reports submitted by two groups of people. The first group is TWRA officers who investigate boat accidents and report their findings on TWRA Boating Accident Report forms (BAR) and the second group is individual boaters who use a shorter self-report form designed for minor accidents. This data is for accidents which occurred during the 2006 calendar year.

To be considered a "reportable boating accident", an accident must involve a death, missing person, an injury which requires treatment beyond first aid, or property damage of \$500 or more. Tennessee requires operators involved in an accident to immediately notify TWRA and send in a report within 10 days if an officer does not investigate. Although TWRA officers are required by policy to investigate accidents that result in death or injury they frequently investigate property damage accidents also.

At the end of each calendar year, boating accident data is compiled and assembled into Tennessee's annual report. These statistics are analyzed in an effort to formulate pro-active plans to reduce the number of boating accidents and their related fatalities, injuries, and damage. The accident information is also reported to the USCG Office of Boating Safety in Washington, D.C. to be included in the National Boating Accident Database consisting of data from all U.S. states, commonwealths, and territories.

Any questions concerning this report should be directed to:

## 2006 TENNESSEE BOATING ACCIDENT STATISTICAL REPORT

### EXECUTIVE SUMMARY

#### 2006 REPORTABLE BOATING ACCIDENTS

- The total number of *registered vessels* in 2006 was **271,687**. That was an **increase** of over 4,000 from 2005.
- The total number of *reported accidents* in 2006 was **222**. That was a **increase** from 2005 which had 169.
- The *accident rate* for 2006 was **81.7 per 100,000** registered vessels. This was a **increase** from 2005 which was 63.5 per 100,000.
- The *body of water* that reported the most accidents was **Ocoee River** with **19 accidents**.
- The *county* that reported the most accidents was **Polk County**.
- The *monetary amount* of damage resulting from boating accidents in 2006 was **\$2,323,710**. This was an **increase** from 2005 which reported \$975,213.
- The most common *type of boat* involved in an accident was an **open motorboat**.
- The leading *type of accident* was **collision with another vessel**.
- The most common *operation* during an accident was **cruising**.
- The leading *contributing factor* of accidents was **careless or reckless behavior** followed closely by **operator inattention**.
- *Alcohol and/or drug use* was a contributing factor in **6.3%** of accidents. This was an **increase** from 2005 which was 5.3% of accidents.
- *Rented or borrowed vessels* were involved in **21.2%** of accidents in 2006. This was an **increase** from 2005 which was 18.3% of accidents.
- The most likely *time* to be involved in an accident was between the hours of **12:00 noon and 4:00pm**.
- The most likely *day of the week* to be involved in an accident was **Saturday**.
- The leading *age group* of operators to be involved in an accident was **41 through 45**.
- The holiday weekend of **July 4<sup>th</sup>** (Sat. through Tues.) was the *period* of highest reported accidents in 2006 with **29 accidents**.

## 2006 BOATING FATALITIES

- The *number* of boating fatalities for 2006 was **16**. This was an **increase** from 2005 which reported 10.
- The *type of accident* that resulted in the most fatalities was **falls overboard** with 3.
- The *type of vessel* that was most common in fatal accidents was the **open motorboat** with 11 vessels. Personal watercraft (PWC) accounted for no fatal accidents in 2006.
- The *length of vessel* that was most common in fatal accidents was **less than 16 feet** with 9 vessels.

## 2006 SERIOUS INJURY ACCIDENTS

- The *number* of serious injury accidents in 2006 was **107** resulting in **129 injuries**.
- The operator *age group* that resulted in the most injury accidents was **46 through 50** with 16 operators.
- The *type of accident* that resulted in the most injuries was **Skier Mishap or Fall** with 27 accidents.
- The *body of water* that produced the most injury accidents was the **Ocoee River** with 19 accidents. These resulted from whitewater sports activities.

## 2006 PROPERTY DAMAGE ACCIDENTS

- The *number* of property damage accidents in 2006 was **100**. This was an **increase** from 2005 which reported 72.
- The *type of accident* that most commonly resulted in property damage was **collision with another vessel** with 36 accidents.
- The *body of water* that reported the most property damage accidents was **Norris Lake** with 9 accidents.
- The leading *contributing factor* in property damage accidents was **operator inattention** with 11 accidents.

## 2006 PERSONAL WATERCRAFT (PWC) ACCIDENTS

- The *number* of PWC accidents in 2006 was **46**. This was **no change** from 2005 which reported 46.
- The *type* of PWC accident that was most common was **collision with another vessel** with 25 accidents.
- The leading *contributing factor* for PWC accidents was **operator inattention** with 7 accidents. This was followed closely by **careless/reckless** with 6 accidents.
- The *bodies of water* with the most PWC accidents were **J. Percy Priest Lake and Chickamauga Lake** each with 6 accidents.
- The most common *operator age groups* to be involved in a PWC accident was **16 through 20, 26 through 30, and 46 through 50** each with 8 accidents.
- The *number of injuries* for PWC accidents was **38**.

## 2006 LAW ENFORCEMENT SUMMARY

• Total boating law enforcement hours	60,019
• On-Water law enforcement hour(boat log hours)	43,215
• Boating citations issued	2,795
• BUI arrests	84
• Warning citations issued	2,088
• Vessels inspected by law enforcement	83,440
• Search and rescue missions	43
• Total number of boating enforcement officers	183 full time
	59 part time
	242 total
• Officers trained in BUI detection	42
• Officers trained in accident investigation	11

## 2006 BOATING EDUCATION SUMMARY

In 2005 a law went into effect that required vessel operators born after January 1, 1989 to have onboard the Tennessee Wildlife Resources Agency (TWRA)-issued Boating Safety Education Certificate. Students must pass a monitored exam administered by appointed volunteers or TWRA personnel. All exams are approved by the National Association of State Boating Law Administrators (NASBLA).

- Number of persons successfully completing exam in 2006 **2761**

# TOTALS 1986-2006

# **RATES 1986-2006**

### Number of Operators at Age Groups

**All Accidents**

**All Accidents**

**2006**

Age of Operator	Number of Operators at Age Group
Less than 12	2
12 through 15	6
16 through 20	22
21 through 25	20
26 through 30	24
31 through 35	25
36 through 40	24
41 through 45	29
46 through 50	26
51 through 55	15
56 through 60	20
61 through 65	17
Over 65	11
No Operator	57
Unknown Age	31
<b>TOTAL</b>	<b>329</b>

**329 VESSELS INVOLVED IN 222 ACCIDENTS RESULTING IN 129 INJURIES AND 16 FATALITIES**

## Number of Vessels Involved in Accidents by Length

All Accidents 2006

Vessel Length	Number of Vessels Involved in Accidents
Less than 16'	87
16' to 26'	125
26' to 40'	25
40' to 65'	10
over 65'	8
Unknown	19

## Number of Vessels Involved in Accidents By Vessel Type

**All Accidents 2006**

Type of Vessel	Number of Vessels Involved in Accidents
Open Motorboat	116
PWC	64
Pontoon	26
Cabin Motorboat	22
Houseboat	22
Raft	19
Canoe/Kayak	4
Jon Boat	3
Sail	2
Tug Boat	1
Unknown Type	4

## Number of Accidents by Accident Type

**All Accidents 2006**

Type of Accident	Number of Accidents
Collision with Vessel	56
Skier Mishap	30
Grounding	21
Fall Overboard	19
Collision with Fixed Object	15
Flooding (swamping)	14
Capsizing	12
Collision with Floating Object	12
Sinking	10
Fire/Explosion (fuel related)	9
Fire/Explosion (non-fuel related)	7
Struck by Boat	6
Fall in Boat	5
Fall on PWC	3
Lightning Strike	2
Heart Attack	1

## Number of Vessels by Operation at Time of Accident - All Accidents 2006

Operation at Time of Accident	Number of Vessels
Cruising	91
Docked(moored)	65
Changing Direction	44
Rowing/Paddling	22
Drifting	20
Docking/Undocking	13
Changing Speed	11
At Anchor	9
Unknown	6
Launching/Loading	4
Water Skiing	4
Being Towed	3
Wake Jumping	3
Tubing	2
Aground	1
Making Repairs	1
Picking up Skier	1
Pulling Empty Tube	1
Towing a Boat	1

# **Number of Vessels by Most Common Activity at Time of Accident - All Accidents 2006**

Most Common Activity at Time of Accident	Number of Vessels
Recreational Cruising	127
Fishing	42
Pulling Tube or Skier	37
Whitewater Rafting	19

Number of Accidents by Contributing Factor - 2006

## Number of Accidents by Contributing Factor

### All Accidents 2006

Contributing Factor	Number of Accidents
CARELESS/RECKLESS	27
OPERATOR INATTENTION	24
HAZARDOUS WATERS	22
UNKNOWN	16
CONGESTED WATERS	15
ALCOHOL USE	14
NO PROPER LOOK OUT	14
OPERATOR INEXPERIENCE	13
EXCESSIVE SPEED	11
SKIER OR OCCUPANT BEHAVIOR	10
MACHINERY FAILURE	9
WEATHER	8
SHARP TURN	7
VISION OBSTRUCTED	6
HULL FAILURE	5
EQUIPMENT FAILURE	4
FAILURE TO VENT FUMES	3
LACK OF PROPER LIGHTS	3
IGNITION OF FUEL VAPOR	2
OFF THROTTLE STEERING	2
RESTRICTED VISION	2
FOLLOWING TOO CLOSE	1
HEART ATTACK	1
IMPROPER ANCHORING	1
IMPROPER LOADING	1
OVERHEATING	1
OVERLOADING	1
SKIER INEXPERIENCE	1
VESSEL IN GEAR WHILE STARTING	1
VIOLATION OF NAVIGATION RULE	1
WATER LEAK	1

**Times That Accidents Occurred**

Time Of Accident	All Accidents	Fatal Accidents	Injury Accidents
12 Midnight to 4 am	12	3	2
4 am to 8 am	6	0	2
8 am to 12 noon	24	1	14
12 noon to 4 pm	78	3	45
4 pm to 8 pm	69	7	32
8 pm to 12 Midnight	21	0	9
Unknown time	12	1	3

**Number of Accidents by Day of Week - All Accidents 2006**

Day of Week	Number of Accidents
Sunday	48
Monday	24
Tuesday	23
Wednesday	14
Thursday	23
Friday	19
Saturday	71

## GLOSSARY

**At Anchor-** Held in place in the water by an anchor; includes “moored” to a buoy or anchored vessel and “dragging” anchor.”

**Cabin Motorboat-** Motorboats with a cabin which can be completely closed by means of doors or hatches. Large motorboats with cabins, even though referred to as yachts, are considered to be cabin motorboats.

**Collision with another vessel-** Any striking together of two or more vessels, regardless of operation at time of accident, it is a collision. (Also includes colliding with the tow of another vessel, regardless of the nature of the tow, i.e., surfboard, ski ropes, skier, tow line, etc.)

**Collision with fixed object-** The striking of any fixed object, above or below the surface of the water.

**Collision with floating object-** Collision with any waterborne object above or below the surface that is free to move with the tide, current, or wind, except with another vessel.

**Cruising-** Proceeding normally, unrestricted, with an absence of drastic rudder or engine changes.

**Documented yacht-** A vessel of five or more net tons owned by a citizen of the United States and used exclusively for pleasure with a valid marine document issued by the Coast Guard. Documented vessels are not numbered.

**Drifting-** Underway, but proceeding over the bottom without use of engines, oars or sails; being carried along only by the tide, current, or wind.

**Fallen Skier-** A person who has fallen off their water skis.

**Fault of operator-** Speeding; overloading; improper loading, not properly seating occupants of boat; no proper lookout; carelessness; failure to heed weather warnings; operating in a congested area; not observing the Rules of the Road; unsafe fueling practices; lack of experience; ignorance of aids to navigation; lack of caution in an unfamiliar area of operation; improper installation or maintenance of hull, machinery or equipment; poor judgment; recklessness; overpowering the boat; panic; proceeding in an unseaworthy craft; operating a motorboat near persons in the water; starting engine with clutch engaged or throttle advanced; irresponsible boat handling such as quick, sharp turns.

**Fiberglass (plastic) hull-** Hulls of fiber reinforced plastic. The laminate consists of two basic components, the reinforcing material (glass filaments) and the plastic or resin in which it is embedded.

**Fire/explosion (fuel)-** Accidental combustion of vessel fuel, liquids, including their vapors, or other substances, such as wood or coal.

**Fire/explosion (other)-** Accidental burning or explosion of any material on board except vessel fuels or their vapors.

**Flooding-** Filling with water, regardless of method of ingress, but retaining sufficient buoyancy to remain on the surface.

**Fueling-** Any stage of the fueling operation, primarily concerned with the introduction of explosive or combustible vapors or liquids on board.

**Grounding-** Running aground of a vessel, striking or pounding on rocks, reefs, or shoals; stranding.

**Improper loading-** Loading, including weight shifting, of the vessel causing instability, limited maneuverability, or dangerously reduced freeboard.

**Improper lookout-** No proper watch; the failure of the operator to perceive danger because no one was serving as lookout, or the person so serving failed in that regard.

**Inboard-outboard-** Also referred to as inboard/outdrive. Regarded as inboard because the power unit is located inside the boat.

**Maneuvering-** Changing of course, speed, or similar boat handling action during which a high degree of alertness is required or the boat is imperiled because of the operation, i.e. docking, mooring, undocking, etc.

**Motorboat-** Any vessel equipped with propulsion machinery, not more than sixty-five feet in length.

**Motor vessel-** Any vessel equipped with propulsion machinery (other than steam) more than 65 feet long.

**Numbered vessel-** An undocumented vessel numbered by a state with an approved numbering system or by the Coast Guard under Chapter 123 of title 46, U.S.C.

**Off Throttle Steering-** A term used to describe the lack of steering ability on a jet drive vessel that has no rudder. Steering is accomplished by directing the flow of water from the drive. When no water is flowing from the drive (off throttle) steering ability is lost. Common to Personal Watercraft.

**Open Motorboat-** Craft of open construction specifically built for operating with a motor, including boats canopied or fitted with temporary partial shelters.

**Outboard-** An engine not permanently affixed to the structure of the craft, regardless of the method or location used to mount the engine, e.g. motor wells, “kicker pits”. Motor pockets, etc.

**Overloading-** Excessive loading of the vessel causing instability, limited maneuverability, dangerously reduced freeboard, etc.

**Personal Watercraft-** Craft less than 13 feet in length designed to be operated by a person or persons sitting, standing or kneeling on the craft rather than within the confines of a hull.

**Rules of the Road-** Statutory and regulatory rules governing navigation of vessels.

**Sailboat or auxiliary sailboat-** Craft intended to be propelled primarily by sail, regardless of size or type.

**Skurfing** – Wakesurfing behind the boat on a surfboard.

**Sinking-** Losing enough buoyancy to settle below the surface of the water.

**Speeding-** Operating at a speed, possibly below the posted limit, above that which a reasonable and prudent person would operate under the circumstances.

**Steel hull-** Hulls of sheet steel alloy, not those with steel ribs and wood, canvas, or plastic hull coverings.

**Struck by boat or propeller-** Striking of a victim who is outside of the boat, but not necessarily a swimmer.

**Swamping-** Filling with water, particularly over the side, but retaining sufficient buoyancy to remain on the surface.

**Towing-** Engaged in towing any vessel or object, other than a person.

**Wood hull-** Hulls of plywood, molded plywood, wood planking, or any other fiber in its natural consistency, including those of wooden construction that have been “sheathed” with fiberglass or sheet metal.

## **Reporting Criteria and Guidelines for Recreational Vessel Accidents**

- I. Title 33 Code of Federal Regulations, Subchapter S – Boating Safety, Part 173 – Vessel Numbering and Casualty and Accident Reporting, Subpart C – Casualty and Accident Reporting, applies to vessels that are used by their operators for recreational purposes, or that are required to be numbered, except for those vessels required by law to have a Certificate of Inspection.
- II. Recreational vessel means any vessel manufactured or operated for pleasure; or leased, rented, or chartered to another for the latter's pleasure that is propelled or controlled by machinery, sails, oars, paddles, poles, or another vessel.
- III. A recreational boating accident means a recreational vessel, a numbered vessel, or a documented vessel is being used by its operator for recreational purposes **AND** one or more of the following events occur involving the vessel or its equipment:
  - Grounding;
  - Capsizing;
  - Flooding / Swamping;
  - Falls within or overboard a vessel;
  - Person(s) ejected from a vessel;
  - Person leaves a vessel that is underway to swim for pleasure;
  - Person leaves a vessel in an attempt to retrieve a lost item, another person, or another vessel;
  - Sinking;
  - Fire or Explosion;
  - Skier Mishap;
  - Collision with another vessel or object;
  - Striking a submerged object;
  - The vessel, propeller, propulsion unit, or steering machinery strikes a person;
  - Carbon Monoxide asphyxiation.

As a general guideline, if any of the above events occur and there is a reasonable likelihood that as a result of the event(s) – an injury, death, or property damage occurs – the incident is a recreational boating accident. More than likely, the boating trip would have been successfully completed without incident had any of the above event(s) not occurred.

- IV. The operator of a vessel involved in a recreational boating accident as defined in Section III must submit a casualty or accident report to the reporting authority in the State where the accident occurred when:
  - a. A person dies;
  - b. A person is injured and requires medical treatment beyond first aid;
  - c. Damage to vessels and other property totals \$500 or more or there is a complete loss of any vessel; or
  - d. A person disappears from the vessel under circumstances that indicate death or injury.
